ABOUT US | Energizing Cleantech

Foresight is [Western Canada's Cleantech Accelerator](#).

We are a group of thought-leaders and changemakers, working together to ensure a prosperous future for Canadian cleantech, both domestically and abroad.

We fuel the identification, commercialization and adoption of the clean technologies needed to address today's most urgent climate challenges.

OUR MODEL | Cleantech Ecosystem Accelerator

Break Down Silos

To bring industry, innovative technology providers, investors, academics, and government together.

Scale Technology

To help governments and industry meet progressive climate targets and fully transition to a green economy.

Accelerate Adoption

To support SMEs, helping them bring products to market quickly, cost-effectively and strategically across cleantech sectors.

PROGRAMS & SERVICES | Building Cleantech Ecosystems

	Accelerator Programs	Launch, Deliver, & Grow programming for start-ups
	Strategic Partnerships	Custom programming and innovation capacity building
	Innovation Challenges	Solving industry challenges with cleantech solutions
	Cluster Building	Engaging multi-stakeholder networks
	Market Research	Market intelligence & industry roadmapping

HELIX - 5 | Stakeholder Engagement Model

	SMEs	Unique, direct approach to supporting SMEs
	Industry	Structure and support to understand innovation and opportunities
	Investors	Opportunities for deal flow and support for early stage companies
	Academia	Support for later stage startups and industry engagement
	Government	Entrepreneurial arm for programs and initiatives

POSITIONING CANADA | Regional & Sectoral Cluster Programs

The CORE Cleantech Cluster Vision and Strategy is a guide to shape the growth of the clean economy in British Columbia.

+1000
